

Orient Opportunities China Fund

Fund overview

30 September 2025

The Fund is a multi-manager solution which aims to maximise capital growth by investing directly or indirectly into Chinese equities and equity-related securities. It seeks to outperform its benchmark over rolling 3-year periods. The Fund gains this exposure primarily through investment into collective investment schemes. RisCura aims to select managers and create a combined portfolio that can deliver consistent outperformance in most market environments and aims to have exposure to managers based in mainland China as well as offshore. The Fund is suitable for investors with a long investment horizon who are seeking significant long term real returns but who can tolerate volatility in the interim.

Risk

High Risk: This portfolio has a very high exposure to equities and therefore tends to carry higher volatility. Expected potential long-term returns are high, but the risk of potential capital losses is high as well, especially over shorter periods. In addition, the portfolio is denominated in US Dollars which means it is exposed to currency risk. The Fund is suitable for long term investment horizons.

The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. TER is a historic measure of the impact the deduction of management and operating costs has on a fund's value. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER, which includes the annual service fee, may not necessarily be an accurate indication of future TERs. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. They should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER. Cost ratios are calculated using historical actual and/or estimated data and are provided solely as an indication/guide as to the annual expenses/costs that could be incurred. These ratios do not represent any current/actual charges or fees. The above expense table refers only to fees, charges and expenses by payable directly by the Fund. They do not include fees, charges and expenses payable to underlying Funds, their managers or service providers.

Glossary

Annualised performance	Shows longer term performance rescaled to a one-year period. Annualised performance is the average return per one year over the period. Actual annual figures are available to the investor on request.
Fund of funds	Is a portfolio that invests in portfolios of collective investment schemes, which levy their own charges, which could result in a higher fee structure for these portfolios.
Highest & lowest return	The highest and lowest rolling twelve-month performance of the portfolio since inception.
Net asset value (NAV)	Means net asset value, which is the total market value of all assets in a portfolio including any income accruals and less and deductible expenses such as audit fees, brokerage and service fees.

Regulatory information and risk warning

The Orient Opportunities China Fund ("the Fund") is a sub-fund of Prescient Global Qualified Investor Fund ICAV (PGQIF), an umbrella type Irish collective asset management vehicle with variable capital and segregated liability between sub-funds incorporated with limited liability in Ireland and authorised by the Central Bank of Ireland as a Qualified Investor Alternative Investment Fund. Authorisation of the Fund by the Central Bank of Ireland is not an endorsement or guarantee nor is the Central Bank of Ireland responsible for the contents of the prospectus. Authorisation by the Central Bank of Ireland shall not constitute a warranty as to the performance of the Fund and the Central Bank of Ireland shall not be liable for the performance or default of the Fund.

Shares in the Fund cannot be offered in any jurisdiction in which such offer is not authorised or registered.

The investments of the Fund are subject to market fluctuations and the risks inherent in all investments and there can be no assurance that an investment will retain its value or that appreciation will occur. The price of shares and the income from shares (if any) can go down as well as up and investors may not realize the value of their initial investment. Accordingly, an investment in the Fund should be viewed as a medium to long-term investment. Prospective investors should seek appropriate professional advice before making an investment.

Copies of the prospectus are available from the Investment Manager or the Alternative Investment Fund Manager.

Prescient Fund Services (Ireland) Limited is the Alternative Investment Fund Manager of the PGQIF and Northern Trust Fiduciary Services (Ireland) Limited has been appointed as depository and custodian. RisCura Invest (Pty) Ltd is the investment manager and distributor of the Fund and has been approved by the Central Bank of Ireland for Irish authorised investment funds. RisCura Invest (Pty) Ltd is also a South African authorised financial services provider. For investors in South Africa

South African investors who are not retirement funds will need to certify that they are institutional investors, and that their investment in the Fund does not represent any direct or indirect investment by any retail investor. This Fund will not be made available to retail investors on any South African Linked Investor Services Platform.

The Fund is considered a foreign Collective Investment Scheme in Securities (CIS). A CIS should be considered as a medium to long-term investment. The value may go up as well as down and past performance is not a guide to future performance. There is no guarantee in respect of capital or returns in a portfolio. CIS prices are calculated on a net asset basis, which is the total value of all assets in the portfolio including any income accruals less any permissible deductions (such as brokerage, administration charges, directors' fees, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. A CIS is traded at the ruling price. A CIS can engage in scrip lending and borrowing and may borrow up to 10% of the market value of its portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Investment Manager. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate.

Where foreign securities are included in a portfolio there may be constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all subscription or redemption notices must be received by Prescient Fund Services (Ireland) on or before 17:00 GMT on the Business Day that is 10 Business Days prior to the relevant Subscription or Redemption Date, to be transacted at the net asset value price for that Subscription or Redemption Date.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.
