

# ETFSA Balanced Foundation Prescient AMETF

## INVESTMENT OBJECTIVE AND STRATEGY

The Fund will aim to offer a strategic asset allocation of multi-asset classes, to achieve steady, long-term capital growth that is supplemented with income. This fund balances exposure to interest rate instruments, with investments into global and local equity markets and is ideal for investors with a moderate to high risk profile.

## PORTFOLIO HOLDINGS

**Note:** The portfolio holdings will be available in the following MDD.

| Asset Class | Exchange Traded Fund | Weight |
|-------------|----------------------|--------|
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |
| -           | -                    | -      |

### LIQUIDITY PROVIDER

Prescient Securities (Pty) Ltd

## DISCLAIMER

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CISs are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

Exchange traded funds are listed on an exchange and may incur additional costs.

The Manager retains full legal responsibility for any third party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks, and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees.

Performance has been calculated using net NAV to NAV numbers with income reinvested.

Exchange Traded Funds vs Unit Trusts: Whilst both unit trusts and ETFs are regulated and registered under the Collective Investment Schemes Control Act, ETFs trade on stock exchanges just like any other listed, tradable security. Unlike a unit trust, which can be bought or sold only at the end of the trading day, an ETF can be traded intraday, during exchange trading hours.

For any additional information such as fund prices, brochures and application forms please go to [www.prescient.co.za](http://www.prescient.co.za).

The Management Company and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient is a member of the Association for Savings and Investments South Africa.

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any particular investments. Opinions expressed in this document may be changed without notice at any time after publication. We therefore disclaim any liability for any loss, liability, damage (whether direct or consequential) or expense of any nature whatsoever which may be suffered as a result of or which may be attributable directly or indirectly to the use of or reliance upon the information.

This portfolio operates as a white label fund under the Prescient ETF Scheme, which is governed by the Collective Investment Schemes Control Act. ETFSA Portfolio Management Company (Pty) Ltd is an authorised Financial Services Provider FSP 52314 and has been appointed by the Manager to manage the portfolio.
