

At Prescient we embrace mutually reinforcing values of commercial success and empowerment. Integral to our business and investment process is our fiduciary responsibility to our investors, shareholders, staff and our communities, locally and globally. As a proud signatory to the UN PRI we embrace the principles of responsible investments whilst holding true to our fiduciary commitment to all our stakeholders.

We are cognisant of and support the UN PRI, which is a set of six principles that facilitate the integration of ESG into mainstream investment practices. Within our fiduciary framework we commit to the following:

- Strive to incorporate, where possible, ESG issues into investment analysis and decision-making process
- Be active owners and incorporate ESG issues in our ownership policies and practices (active owners)
- Seek appropriate disclosure on ESG issues by entities in which we invest (engagement)
- Promote acceptance and implementation of the Principles within the investment industry (awareness)
- Work together to enhance effectiveness in implementing the Principles (collaboration)
- Report on our activities and progress implementing the Principles (assessment/disclosure)
