Aberdeen Global - World Resources Equity Fund

Important information

Risk factors you should consider before investing:

- The value of shares and the income from them can go down as well as up and you may get back less than the amount invested.
- Investing globally can bring additional returns and diversify risk. However, currency exchange rate fluctuations may have a positive or negative impact on the value of your investment.
- This Fund invests in a specialist sector and it will not perform in line with funds that have a broader investment policy.

Other important information:

This document serves as the Minimum Disclosure Document required in terms of the Advertising, Marketing and Information Disclosure Requirements for Collective Investment Schemes published by the Financial Sector Conduct Authority (FSCA).

Aberdeen Global is domiciled and regulated in Luxembourg and the Aberdeen Global sub-funds available for public sale in South Africa are approved by the Financial Sector Conduct Authority (FSCA). The Aberdeen Global sub-funds are Collective Investment Schemes in Securities. This document describes only one share class; other share classes may be available.

Collective Investment Schemes in Securities (CIS) are generally medium to long term investments. The value of participatory interests may go down as well as up and past performance is not necessarily a guide to the future. CIS are traded at ruling prices and can engage in borrowing and scrip lending. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity.

CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees.

A schedule of fees and charges and maximum commissions is available on request from Aberdeen Asset Managers Limited ("AAML"), 10 Queens Terrace, Aberdeen, AB10 1YG, Scotland and are also available on www.aberdeen-asset.co.za. Additional adviser fees may be paid and if so, are subject to the relevant regulatory disclosure requirements.

AAML does not provide any guarantee either with respect to the capital or the return of a portfolio.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Performance shown is that of the Fund and individual investor performance may differ as a result of initial fees, actual investment date, date of any subsequent reinvestment and any dividend withholding tax.

Aberdeen Global has been authorized for public sale in certain jurisdictions and private placement exemptions may be available in others. It is not intended for distribution or use by any person or entity that is a citizen or resident of or located in any jurisdiction where such distribution, publication or use would be prohibited. Tax treatment depends on the individual circumstances of each investor and may be subject to change in the future. You should obtain specific professional advice before making any investment decision.

This portfolio may be closed to new investors, in accordance with what sets out in the relevant legal documents, in order to be managed in accordance with the mandate.
