FUND COMMENTARY

Quarterly Performance

The Portfolio delivered a net return of -8.9% for the first quarter of 2026. This compares to the MSCI All Country World Index that fell by -3.1% in the quarter.

Attribution

Companies in the resources and financial services sectors drove most of the positive fund performance, while exposure to technology, payments and luxury goods segments detracted from performance in the quarter.

Macro

The war in Iran has been a major headwind for markets over the past month. The primary question on investors' minds has been "how long the war will last"? Unlike the 12-day war in Iran that came and went in short order last year, the current conflict is proving to be both longer in duration and more severe in its impact. While the US consistently seeks to escalate the severity of its attacks to apply pressure on the Iranian regime, Iran is playing an asymmetric long game whereby they leverage their geostrategic location and low-cost weapons (drones) to keep the Strait of Hormuz closed.

The closure of the Strait has placed enormous upward pressure on oil prices, as evidenced by the +44% rise in the price of Brent Crude in the last month. The higher oil price drives up the cost of fuel, groceries and other goods for voters ahead of midterm elections, increasing the political pressure on President Trump. The impact of the war has been felt across the world, with consumers in the crosshairs.

The S&P500, EuroStoxx50 and Hang Seng Indices fell by 5.04.6%, 4.811.4% and 5.96.8% respectively in USD in the month of March because of the Iranian war. Shares in the technology sector were under pressure as the tech heavy Nasdaq index fell by 4.7% in the month. Investor questions about elevated capital expenditure levels required to drive uncertain future AI revenues have grown louder, but signals of accelerating growth continue to improve while valuations are now at highly attractive levels.

Portfolio Construction

From a thematic perspective, the portfolio continues to maintain adequate net exposure to opportunities in two main buckets, being (1) store of value and (2) artificial intelligence beneficiaries. We remain convinced that opportunities we have exposure to in each of these buckets have the valuations to support and future growth prospects to deliver strong and sustained returns for investors in the coming quarters and years. At the end of the quarter, exposure remains highly concentrated with the top 10 positions comprising 54% of the fund value. Technology remains a significant overweight position, given higher expected growth from AI related investments and attractive valuations that now offer compelling risk reward skews. The fund has meaningful exposure to financial services and ecommerce companies with superior growth and compelling entry multiples. The balance of the fund is comprised of selective investments in healthcare, payments, luxury goods, and smaller positions in industrial companies.

Outlook

The duration of the Iranian war and extent of infrastructure damage in the Middle East will likely remain significant determinants of market levels in the coming months. The prospect of higher inflation levels looms large given the significant supply shock in oil and oil derivative products. Given the aggressive repricing of risk assets over the course of the past month, valuations are starting to look attractive. The case for "store of value" assets is fundamentally stronger than it was prior to the war and progress in the realm of artificial intelligence continues to exceed our most optimistic expectations. Despite a difficult start to the year, we believe the portfolio is well positioned to deliver strong risk adjusted returns for investors in the coming quarters.

FUND DISCLAIMER AND DISCLOSURE

INVESTMENT STRATEGY AND MANDATE

The Fund is managed by Peregrine Capital International. Peregrine Capital International employs a bottom-up stock selection process based on rigorous and disciplined fundamental research, drawing on experience of covering the sectors and companies over many years. Peregrine Capital International focuses its time on building detailed knowledge of specific companies, rather than predicting the economic trends or taking a view on overall markets. The Fund mandate is founded on the UCITS principles for a general equity fund, and position sizes are limited per these regulatory restrictions. The fund adhered to the investment policy objectives.

RISK WARNING

The investments of the Peregrine Capital Global Equity Fund (the "Fund") are subject to market fluctuations and the risks inherent in all investments and there can be no assurance that an investment will retain its value or that appreciation will occur. The risks associated with investing in the Fund include, but are not limited to the following: currency risks, general market risks (such as general movements in interest rates; external factors [war, natural disasters and the like]); changes to the law and regulatory frameworks; governmental policy changes; global, regional or national economic developments and risks related to a specific security (such as the possibility of a company's credit rating being downgraded). Foreign securities are included in the Fund and there may be potential constraints on liquidity and the repatriation of currency, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks and potential limitations on the availability of market information. Changes in the relative values of individual currencies may adversely affect the value of investments and any related income.

GENERAL INFORMATION

This document is the minimum disclosure document ("MDD") required by Board Notice 92 of 2014 published by the Financial Sector Conduct Authority under the Collective Investment Schemes Control Act, No. 45 of 2002. Collective Investment Schemes in Securities ("CIS") should be considered as medium to long-term investments. The price of shares and the income from shares can go down as well as up and investors may not realize the value of their initial investment. Accordingly, an investment in the Fund should be viewed as a medium to long-term investment. Past performance may not be a reliable guide to future performance. CIS are traded at the ruling price and can engage in scrip lending and borrowing. A schedule of fees, charges and maximum commissions is available on request from the Manager. Neither the Manager, Prescient, Peregrine Capital International nor Peregrine Capital provides any guarantee either with respect to the capital or the investment performance of the Fund. Prescient has the right to close the Fund to investments from new investors, and/or to close the Fund to new investments, and/or to accept new investments only from certain persons or groups of persons, and/or to limit or suspend the creation and issue of new shares, in each case on such terms as it may determine, in order to manage the Fund more efficiently in accordance with its mandate. Where any forecasts or commentary about the expected future performance of asset classes, or the market in general, are made in this document, please note that neither the Manager, Peregrine Capital International, Peregrine Capital nor Prescient guarantee that such forecasts or commentary will occur. Peregrine Capital Global Equity Fund is a sub-fund under Prescient Global Funds ICAV, a UCITS fund authorised by the Central Bank of Ireland which Scheme and is also authorised by the FSCA under Section 65 of the Collective Investment Schemes Control Act, 2002. Authorisation of the Fund by the Central Bank of Ireland is not an endorsement or guarantee nor is the Central Bank of Ireland responsible for the contents of the prospectus. Authorisation by the Central Bank of Ireland shall not constitute a warranty as to the performance of the Fund and the Central Bank of Ireland shall not be liable for the performance or default of the Prescient Global Funds ICAV.

CALCULATION OF THE NAV AND PRICE

The value of shares is calculated on a net asset value ("NAV") basis. The NAV is the total value of all assets in the Fund including any income accruals and less any permissible deductions (which may include audit fees, brokerage, service fees, securities transfer tax and bank charges) for a particular class. The price of shares is calculated by dividing the NAV by the number of shares in issue for that class. The price of shares is published monthly in the MDD, which is available at www.peregrine.co.za.

INVESTMENT PERFORMANCE

Performance figures are provided by the Fund Manager. The performance calculated and shown is that of the Fund. Performance has been calculated using net NAV to NAV numbers with income reinvested. The investment performance for each period shown reflects the net return for investors who have been fully invested for that period. Individual investor investment performance may differ as a result of initial fees (if applicable), the actual investment date, the date of reinvestment of distributions and/or distribution dates, and dividend withholding tax. Where periods of longer than 1 year are used in calculating past performance, certain figures may be annualised. Annualised performance is the average return per year over the period. Actual annual figures and investment performance calculations are available on request from Prescient.

PERFORMANCE FEES

An annual management fee of 1.25% and a performance fee of 15% above the hurdle (MSCI ACWI) is charged to the Fund. A high water mark ("HWM") is applied, which ensures that performance fees will only be charged on new performance. There is no cap on the USD amount of performance fees.

MSCI ACWI INDEX

The MSCI ACWI Index captures large and mid cap representation across Developed Markets ("DM") and Emerging Markets ("EM") countries. The index covers approximately 85% of the global investable equity opportunity set. The index does not reflect the performance of any specific investment portfolio and does not take into account management fees, performance fees, transaction costs, taxes, liquidity constraints, or risk management practices applicable to the Fund. The Index is not investable and is presented for comparative purposes only.

LIMITATION OF LIABILITY

This MDD has been compiled for information purposes only and does not take into account the needs or circumstances of any person or constitute advice of any kind. It is not an offer to sell participatory interests or an invitation to invest. The information and opinions in this MDD have been recorded by Prescient, the Manager, Peregrine Capital International and Peregrine Capital in good faith from sources believed to be reliable, but no representation or warranty, express or implied, is made as to their accuracy, completeness or correctness. The Manager, Prescient and Peregrine Capital accordingly accept no liability whatsoever for any direct, indirect or consequential loss arising from the use of this MDD or its contents.
