

Goldman Sachs Yen Liquid Reserves Fund

MINIMUM DISCLOSURE DOCUMENT & GENERAL INVESTOR REPORT

0326

Issue Date: 30/04/2026

Investor Objective & Policy ⁽²⁾

The Portfolio seeks both capital preservation and income.

The fund can complement your portfolio.

The fund is designed for investors who are looking to invest their Yen cash in an alternative to cash deposits and/or manage their daily cash flows via a fund vehicle which seeks to preserve capital and generate income by investing in investment grade government and non-government money market securities. While the fund seeks to achieve its investment objective, investors should understand that the fund's investment objective may not be realised and some or all of your investment is at risk. The portfolio has adhered to its investment policy objectives during the period covered by this reporting.

Risk Reward profile

This risk profile is based on historical data and may not be a reliable indication of the future risk profile of the Portfolio. The risk category shown is not guaranteed and may change over time. The lowest category does not mean risk free. It is possible that a portfolio stated to have a lower risk profile may in fact fall in value more than a portfolio with a higher risk profile. The Portfolio is in category 1 as it mostly invests in shares and similar instruments which typically experience higher levels of price fluctuations than fixed income securities. The capital is not guaranteed.

⁽¹⁾ More information about the Standard and Poor's Ratings Services and its calculation can be found on the following website: <https://www.spratings.com/products-and-capabilities/principal-stability-fund-ratings.html>. ⁽²⁾ The GS Yen Liquid Reserves Fund is classified as a "Short Term Money Market Fund" in accordance with the European Securities and Markets Authority (ESMA)'s Guidelines on a common definition of European Money Market Funds, dated May 2010. This classification requires certain criteria to be met by the Fund, including sensitivity to interest rate risk (WAM), maximum maturity of instruments, portfolio liquidity, and level of credit risk. ⁽³⁾ Fund returns are shown net of applicable ongoing fees within the portfolio, with dividends re-invested using the ex-dividend NAV. These returns are for comparison of performance against specified index. As the investor may be liable to other fees, charges and taxes, they are not meant to provide a measure of actual return to investors. The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares. ⁽⁴⁾ Please note that the credit allocation provided details the S&P's breakdown of the fund as at the reported date. For repurchase agreement counterparties we have provided the average rating of the counterparties. Portfolio holdings may not represent current, future investments or all of the portfolio's holdings. Future portfolio holdings may not be profitable. For the avoidance of doubt, when buying units in the funds you are not investing directly in the portfolio holdings. S&P deems the investments rated 'A-1' maturing in 7 days or less equivalent to 'A-1+'. This document reflects actual issue ratings. ⁽⁵⁾ Holdings detail total trade par exposure as at date of report. ⁽⁶⁾ The ongoing charges figure is based on expenses during the previous year. See details in the Key Investor Information Document. The on-going charges are the fees the fund charges to investors to cover the day-to-day costs of running the funds. They are taken from the fund and impacts on the fund's return. Fund charges will be incurred in multiple currencies, meaning that payments may increase or decrease as a result of currency exchange fluctuations. All charges will be paid out by the Fund, which will impact on the overall return of the Fund. ⁽⁷⁾ Please be advised that this is the monthly Total Expense Ratio (TER) for the share class.

Important Risk Considerations

- **Counterparty risk** a party that the Portfolio transacts with may fail to meet its obligations which could cause losses.
- **Credit risk** the failure of a counterparty or an issuer of a financial asset held within the Fund to meet its payment obligations will have a negative impact on the Fund.
- **Custodian risk** insolvency, breaches of duty of care or misconduct of a custodian or subcustodian responsible for the safekeeping of the Fund's assets can result in loss to the Fund.
- **Interest rate risk** when interest rates rise, bond prices fall, reflecting the ability of investors to obtain a more attractive rate of interest on their money elsewhere. Bond prices are therefore subject to movements in interest rates which may move for a number of reasons, political as well as economic.
- **Liquidity risk** the Fund may not always find another party willing to purchase an asset that the Fund wants to sell which could impact the Fund's ability to meet redemption requests on demand.
- **Market risk** the value of assets in the Fund is typically dictated by a number of factors, including the confidence levels of the market in which they are traded.
- **Operational risk** material losses to the Fund may arise as a result of human error, system and/or process failures, inadequate procedures or controls.

Glossary

- **Net Asset Value** – Represents the net assets of the fund (ex-dividend) divided by the total number of shares issued by the fund.
- **Ongoing Charges** – The ongoing charges figure is based on the fund's expenses during the previous 12 months, on a rolling basis. It excludes transaction costs and performance fees incurred by the fund.
- **Weighted Average Maturity (WAM)** – Measures the deviation in portfolio weights from the comparative index/benchmark.
- **Weighted Average Life(WAL)** – Forecast sensitivity of portfolio returns to the comparative index calculated over X years.
- **Annualised performance** – Annualised performance shows longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.

Additional Notes

This document is a Minimum Disclosure Document (MDD) in terms of the Advertising, Marketing and Information Disclosure requirements for Collective Investment Schemes published by the Financial Sector Conduct Authority. Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. **Past performance does not guarantee future results, which may vary. The value of investments and the income derived from investments will fluctuate and can go down as well as up. A loss of principal may occur.** CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

Furthermore, this information should not be construed as financial research. It was not prepared in compliance with applicable provisions of law designed to promote the independence of financial analysis and is not subject to a prohibition on trading following the distribution of financial research.

This information is intended for viewing only by the intended recipient and may not be reproduced or distributed to any person in whole or in part without the prior written consent of GSI. Goldman Sachs International accepts no liability for the misuse or inappropriate distribution of this material.

Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Goldman Sachs by or before 2PM CET to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Goldman Sachs shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at 4PM CET depending on the nature of the Fund. Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

This is a marketing communication. Please refer to the Prospectus of the Fund/s and the Key Information Document (KID) or UK Key Investor Information Document (KIID) (as applicable) before making any final investment decision. Documents providing further detailed information about the fund/s, including the articles of association, prospectus, supplement and the Key Information Document (KID) or UK Key Investor Information Document (KIID) (as applicable), annual/semi-annual report (as applicable), and a summary of your investor rights, are available free of charge in English language and as required, in your local language and as required, in your local language by navigating to your local language landing page via am.gs.com/policies-and-governance and also from the fund's paying and information agents. If GSAMFSL, the management company, decides to terminate its arrangement for marketing the fund/s in any EEA country where it is registered for sale, it will do so in accordance with the relevant UCITS rules. Information about investor rights and collective redress mechanisms are available on am.gs.com/policies-and-governance.

Offering Documents: This material is provided at your request for informational purposes only and does not constitute a solicitation in any jurisdiction in which such a solicitation is unlawful or to any person to whom it is unlawful. It only contains selected information with regards to the fund and does not constitute an offer to buy shares in the fund. Prior to an investment, prospective investors should carefully read the latest Key Investor Information Document (KIID) as well as the offering documentation, including but not limited to the fund's prospectus which contains inter alia a comprehensive disclosure of applicable risks. GS Website: www.gsam.com

Investment Advice and Potential Loss: Financial advisers generally suggest a diversified portfolio of investments. The fund described herein does not represent a diversified investment by itself. This material must not be construed as investment or tax advice. Prospective investors should consult their financial and tax adviser before investing in order to determine whether an investment would be suitable for them.

An investor should only invest if he/she has the necessary financial resources to bear a complete loss of this investment.

Swing Pricing: Please note that the fund operates a swing pricing policy. Investors should be aware that from time to time this may result in the fund performing differently compared to the reference benchmark based solely on the effect of swing pricing rather than price developments of underlying instruments.

Fees are generally billed and payable at the end of each quarter and are based on average month-end market values during the quarter.

Additional information is provided in our Form ADV Part-2 which is available at http://www.adviserinfo.sec.gov/IAPD/Content/Search/iapd_Search.aspx.

The relevant articles of association, prospectus, supplement and key investor information document (KIID) and latest annual/semi-annual report (as applicable) are available free of charge from the fund's paying and information agents as listed agents on the following website: www.gsam.com

Capital is at risk

Goldman Sachs Yen Liquid Reserves Fund is registered and approved under section 65 of the Collective Investment Schemes Control Act 45 of 2002.

Please note that for the purposes of the European Sustainable Finance Disclosure Regulation ("SFDR"), the product is not an Article 8 or 9 product.

Please note that this material includes certain information on Goldman Sachs's sustainability practices and track record, at an organizational and investment team level, which may not necessarily be reflected in the portfolio. Please refer to the offering documents of any product(s) prior to investment, for details on how and the extent to which the product(s) takes ESG considerations into account on a binding or non-binding basis.

Money Market Funds: The Funds are short-term LVNAV money market funds and investors should note (a) that a money market fund is not a guaranteed investment; (b) that an investment in a money market fund is different from an investment in deposits, including in particular because of the risk that the principal invested in a money market fund is capable of fluctuation; (c) that a money market fund does not rely on external support for guaranteeing liquidity or stabilising the Net Asset Value per Share; and (d) that the risk of loss of the principal is borne by the investor. Confidentiality No part of this material may, without Goldman Sachs Asset Management's prior written consent, be (i) copied, photocopied or duplicated in any form, by any means, or (ii) distributed to any person that is not an employee, officer, director, or authorized agent of the recipient.
