

# STONEHAGE FLEMING EQUITY PRESCIENT FUND

**OUR FOUR FUNDAMENTAL  
QUALITY PILLARS - IDENTIFYING  
GLOBAL BEST IN CLASS BUSINESSES**

## INVESTMENT OBJECTIVE

The aim is to maximise investor total return over the long term through a focused portfolio of high quality JSE listed equity securities.

The Fund has adhered to its policy objective.

## FUND FEATURES

A concentrated equity-only portfolio that may invest across all sectors of the JSE. The portfolio will hold between 20 – 30 companies.

## FUND COMMENTARY

The JSE began the year against a backdrop of increasing political uncertainty, both locally and abroad, as Donald Trump was sworn into office as the 47th US president and tensions between local political players look to threaten the stability of the GNU. This manifested itself through a January 7th update by the US Department of Defence list which designated Tencent as a “Chinese Military Company”. Tencent have noted that they believe the designation to be inaccurate and that they will challenge the designation. There was a negative share price reaction by Tencent, Naspers and Prosus to the news.

Richemont released a third quarter sales update, detailing double-digit sales growth in the Americas (+22% at constant exchange rates), Japan and Europe (+19% each), Middle East and Africa (+20%), whilst the Asia Pacific region reported a decline of -7%, albeit a slower decline than that of the prior reporting period. Jewellery Maisons were the stand-out performer over the period, growing sales by +14% and contributing 71% of group sales. The update marked a sequential improvement across all business areas, and has sparked improved sentiment in the luxury space.

Reporting season for many domestic retailers has begun, and the Clicks Group trading update for the 20 weeks to 12 January 2025 reported group turnover up by +8.1%. The group reported a record Black Friday, which helped grow retail sales by +8.7%, despite inflation coming off from +7.5% in 2024 to an average of +3.5% over the period. Shoprite Holdings reported growth in turnover of +9.6% for the interim period to December 2024, against a restated amount which excludes the furniture business held-for-sale. Supermarkets RSA, which is the group’s core business making up 83.7% of sales, grew revenue by +10.4% against a backdrop of internal selling price inflation of +1.9%. The group noted that online sales from Checkers Sixty60 on-demand platform grew by +47%.

Past performance is not a guide to future performance.

<sup>1</sup> For periods longer than one year, returns are annualised. Annualised performance is the weighted average annual compound growth rate over the period measured.

<sup>2</sup> Benchmark is the JSE Capped SWIX Index. (Since 09/10/2023).

<sup>3</sup> Fund Inception Date: 1 June 2016.

<sup>4</sup> The lowest and highest annualised performance numbers are based on 10 non-overlapping one year periods, or the number of non-overlapping one year periods from inception where performance history does not exist for 10 years.

Source for all performance is Bloomberg and Stonehage Fleming Investment Management (South Africa). Third parties (including Bloomberg and Factset) whose data may be included in this document do not accept any liability for errors or omissions. All performance is stated net of fees.

## INVESTMENT STRATEGY

- Seek to identify exceptional businesses with sustainable long-term growth prospects and durable competitive advantages
- Fundamental, bottom-up research process
- Focus on quality of management, return on invested capital, free cash flow generation and balance sheet strength
- Predominantly larger capitalisation businesses; will consider exceptional smaller businesses that meet liquidity limits
- A concentrated, high-conviction portfolio
- Buy to hold orientation alongside disciplined selling process
- Benchmark agnostic, no active trading, no leverage, no hedging

## SUITABLE INVESTORS

The portfolio is suitable for investors who:

- Have a time horizon that exceeds five years
- Seek JSE listed equity exposure
- Have discretionary wealth and require little short-term income
- Can tolerate short-term market fluctuations in pursuit of maximising long-term total return
- Are comfortable to grant the portfolio manager a large degree of investment discretion

## DISCLOSURES AND ADDITIONAL INFORMATION

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any particular investments. Opinions expressed in this document may be changed without notice at any time after publication. We therefore disclaim any liability for any loss, liability, damage (whether direct or consequential) or expense of any nature whatsoever which may be suffered as a result of or which may be attributable directly or indirectly to the use of or reliance upon the information.

Management Company: Prescient Management Company (RF) (Pty) Ltd. This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

This document has been issued by Stonehage Fleming Investment Management (South Africa) (Pty) Ltd (authorised and regulated in South Africa, FSP No: 42847).

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Prescient by or before 13:00 (SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Prescient shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at either 3pm or 5pm depending on the nature of the Fund. Prices are published daily and are available on the Prescient website.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.
