

# STONEHAGE FLEMING WORLDWIDE FLEXIBLE PRESCIENT FUND

OUR FOUR FUNDAMENTAL QUALITY  
PILLARS - IDENTIFYING GLOBAL BEST  
OF BREED BUSINESSES

## INVESTMENT OBJECTIVE

The portfolio will aim to maximize total return for investors by way of a flexible worldwide portfolio actively investing across equities and cash, both locally and internationally.

The Fund has adhered to its policy objective.

## INVESTMENT PHILOSOPHY

We invest in best of class businesses for their quality, strategic competitive edge and value.

## FUND COMMENTARY

Global equity markets reacted positively in May to the marginal drop of -0.1% in US headline inflation, with their bond yields following suit and drifting lower over the month. Investor sentiment was further supported by a good first quarter US reporting season. Both the overall S&P 500 revenue and earnings indices delivered positive surprises, respectively to the order of +1% and +8% compared to consensus expectations.

Investors are also very aware that the US labour market is cooling with job openings and wage growth continuing to drift lower and consumer sentiment weakening. Whilst earlier in the year a 'no landing' economic scenario became a popular view, we believe this optimism is currently in process of softening somewhat. Amongst the company results there were a number of strong reports, but some with a more reserved outlook. Many of those shares were heavily punished, with Salesforce (not a fund holding), a good example in the Quality Growth space. Their revenue increased by +11% and their operating margin increased by +4.5%, but they guided a lower revenue figure of 7% - 8% for the next quarter. The stock dropped by -20% the next day.

The most negative contributors to performance in the fund have been Estée Lauder, LVMH and McDonald's. Estée Lauder's profit recovery seems to be on track, but they cut their revenue guidance on a continuing weak mainland China market (whilst their international travel channel sales are recovering sharply). LVMH softened on its rival Chanel's comments of them 'entering a more challenging environment following three years of exceptional growth'. McDonald's experiences a challenging trading environment in the Middle East and a reduction of spending power at the lower end of the US consumer market.

The best positive contributors to performance were Verisk Analytics, Microsoft and Alphabet. Verisk's revenue increased a solid +8%, along with strong margin expansion and +20% earnings growth. Microsoft recovered off a relatively low base. Alphabet continues performing well on their strong earnings report and growing investor confidence in their AI capabilities.

Data sourced from Bloomberg.

Opinions expressed represent the view of SFIM at the time of preparation. They are subject to change and should not be interpreted as investment advice.

Past performance is not a guide to future performance.

<sup>1</sup> For periods longer than one year, returns are annualised. Source for all performance is Prescient, Bloomberg and Stonehage Fleming Investment Management Limited as at 31/12/23. Third parties (including Bloomberg and Financial Express) whose data may be included in this document do not accept any liability for errors or omissions.

<sup>2</sup> Fund Inception Date: 1 July 2009.

<sup>3</sup> These are the highest or lowest consecutive 12-month returns over 10 years. This is a measure of how much the Fund's returns have varied per rolling 12-month period. The Fund's highest annual return occurred during the 12 months ended 30 June 2014 and The Fund's lowest annual return occurred during the 12 months ended 31 December 2022.

## INVESTMENT STRATEGY

- Invest for sustainable growth
- Fundamental research driven
- Particular focus on quality of management, balance sheet strength, return on invested capital, free cash flow, ability to grow dividends each year
- Bottom-up approach to identify exceptional businesses
- Global orientation, with emerging market exposure
- High conviction concentrated portfolio
- Predominantly larger capitalisation businesses, include some mid-size exceptional ones
- Buy to hold, disciplined selling
- No benchmark orientation, no active trading, no leverage, no hedging

## ASSET ALLOCATION

80.1%  
Global Equity

16.9%  
South African Equity

3.0%  
South African Cash

There were no material changes in the composition of the portfolio during the month

## ANNUALISED PERFORMANCE<sup>1</sup> %

## FEES<sup>2</sup>

Minimum Investment (Platform)	No Minimum
Minimum Investment (Direct)	R 10,000,000
Maximum Initial Advice Fee	N/A
Maximum Annual Advice Fee	1.15%
Investment Manager Initial Fee	N/A
Annual Management Fee	1.43%
Total Expense Ratio (TER)	1.43%
Transaction Costs (TC)	0.14%
Total Investment Charges (TIC)	1.57%

<sup>2</sup> Advice fees are negotiable between the client and their adviser. Annual advice fees are paid through a re-purchase of units from the investor. The fund is available through certain LISPs which levy their own fees. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The Estimated Transaction Costs (TC) displayed, which is calculated using data for the period 1 January 2023 to 31 December 2023 is higher than the expected TC of the fund due to (a) the high trading costs incurred following Stonehage Fleming Investment Management acquiring Rootstock Investment Management, and high trading volumes as the portfolio was rebalanced and (b) brokerage firms with higher trading costs being used. The estimated actual TC payable by a client investing into the fund today would be 0.02%, which brings the estimated TIC down 1.45%. Transaction Costs are a necessary cost in administering the Financial Product and impacts Financial Product returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER. Disclosed performance information is calculated after all fees and costs deducted. All fees inclusive of VAT where applicable.

## DISCLOSURES AND ADDITIONAL INFORMATION

This document is for information purposes only and does not constitute or form part of any offer to issue or sell or any solicitation of any offer to subscribe for or purchase any particular investments. Opinions expressed in this document may be changed without notice at any time after publication. We therefore disclaim any liability for any loss, liability, damage (whether direct or consequential) or expense of any nature whatsoever which may be suffered as a result of or which may be attributable directly or indirectly to the use of or reliance upon the information.

Management Company: Prescient Management Company (RF) (Pty) Ltd. This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

This document has been issued by Stonehage Fleming Investment Management (South Africa) (Pty) Ltd (authorised and regulated in South Africa, FSP No: 42847) and by Stonehage Fleming Investment Management Ltd (authorised and regulated in the UK by the FCA: 194382, and in South Africa by the FSCA, FSP No: 46194).

Collective Investment Schemes in Securities (CIS) should be considered as medium to long-term investments. The value may go up as well as down and past performance is not necessarily a guide to future performance. CIS's are traded at the ruling price and can engage in scrip lending and borrowing. The collective investment scheme may borrow up to 10% of the market value of the portfolio to bridge insufficient liquidity. A schedule of fees, charges and maximum commissions is available on request from the Manager. There is no guarantee in respect of capital or returns in a portfolio. A CIS may be closed to new investors in order for it to be managed more efficiently in accordance with its mandate. CIS prices are calculated on a net asset basis, which is the total value of all the assets in the portfolio including any income accruals and less any permissible deductions (brokerage, STT, VAT, auditor's fees, bank charges, trustee and custodian fees and the annual management fee) from the portfolio divided by the number of participatory interests (units) in issue. Forward pricing is used. The Fund's Total Expense Ratio (TER) reflects the percentage of the average Net Asset Value (NAV) of the portfolio that was incurred as charges, levies and fees related to the management of the portfolio. A higher TER does not necessarily imply a poor return, nor does a low TER imply a good return. The current TER cannot be regarded as an indication of future TER's. During the phase in period TER's do not

include information gathered over a full year. Transaction Costs (TC) is the percentage of the value of the Fund incurred as costs relating to the buying and selling of the Fund's underlying assets. Transaction costs are a necessary cost in administering the Fund and impacts Fund returns. It should not be considered in isolation as returns may be impacted by many other factors over time including market returns, the type of Fund, investment decisions of the investment manager and the TER.

The Manager retains full legal responsibility for any third-party-named portfolio. Where foreign securities are included in a portfolio there may be potential constraints on liquidity and the repatriation of funds, macroeconomic risks, political risks, foreign exchange risks, tax risks, settlement risks; and potential limitations on the availability of market information. The investor acknowledges the inherent risk associated with the selected investments and that there are no guarantees. Please note that all documents, notifications of deposit, investment, redemption and switch applications must be received by Prescient by or before 13:00 (SA), to be transacted at the net asset value price for that day. Where all required documentation is not received before the stated cut off time Prescient shall not be obliged to transact at the net asset value price as agreed to. Funds are priced at either 3pm or 5pm depending on the nature of the Fund. Prices are published daily and are available on the Prescient website.

Performance has been calculated using net NAV to NAV numbers with income reinvested. The performance for each period shown reflects the return for investors who have been fully invested for that period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestments and dividend withholding tax. Full performance calculations are available from the manager on request.

For any additional information such as fund prices, brochures and application forms please go to [www.prescient.co.za](http://www.prescient.co.za)

This portfolio operates as a white label fund under the Prescient Unit Trust Scheme, which is governed by the Collective Investment Schemes Control Act.

The Management Company and Trustee are registered and approved under the Collective Investment Schemes Control Act (No.45 of 2002). Prescient is a member of the Association for Savings and Investments South Africa.

## DISCLOSURES AND ADDITIONAL INFORMATION

### Alpha:

Denoted the outperformance of the fund over the benchmark.

### Sharpe Ratio:

The Sharpe ratio is used to indicate the excess return the portfolio delivers over the risk free rate per unit of risk adopted by the fund.

### Standard Deviation:

The deviation of the return stream relative to its own average.

### Max Drawdown:

The maximum peak to trough loss suffered by the Fund since inception.

### Max Gain:

Largest increase in any single month

### % Positive Month:

The percentage of months since inception where the Fund has delivered positive return.

### Average Duration:

The weighted average duration of all the underlying interest bearing instruments in the Fund.

### Average Credit quality:

The weighted average credit quality of all the underlying interest bearing instruments in the Fund (internally calculated).

### Dividend Yield:

The weighted average dividend yield of all the underlying equity in the Fund. The dividend yield of each company is the dividends per share divided by the price.

### PE Ratio:

The weighted average price earnings ratio of all the underlying equity in the Fund. The price earnings ratio of each company is the price divided by the earnings per share.

### High Water Mark:

The highest level of performance achieved over a specified period.

### Annualised performance:

Annualised performance shows longer term performance rescaled to a 1-year period. Annualised performance is the average return per year over the period. Actual annual figures are available to the investor on request.
